

KHCPL South

Audience: Preschoolers through Fifth-graders

Explore Your Opportunities

Students will receive an all-access pass to the library and learn how to navigate the library in a fun way. We'll even reveal behind-the-scenes secrets of a library!

Choose Your Own Experience

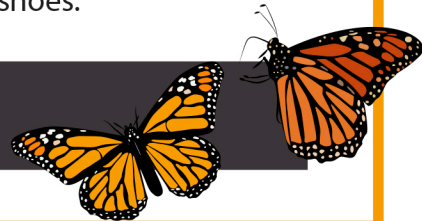

A librarian will create a field trip tailored to a particular subject you're studying. We'll also feature our Experience Kits to add a science, technology, engineering, and math (STEM) element.

Field Trip Beats

Prepare for a workout! Use drumsticks and an exercise ball during a fun activity class for all abilities. It's designed to foster better physical, emotional, mental, and social health. Because we have a limited supply of equipment, we limit the number of participants to 20 per field trip. We require waivers, and everyone should wear comfortable shoes.

Ask about touring our butterfly garden!
